

Topics of lectures of Interventional Pain Management Fellowship

- 1 Fluoroscope: Radiation safety and use of contrast agents
- 2 RF
- 3 US
- 4 Examination of nervous system
- 5 NSAIDs
- 6 Radiological significant finding in Lumbosacral spine
- 7 Local anesthetics
- 8 Pain + pain pathway
- 9 Physiology of nerve + its damage
- 10 Chemical neurolytic agent
- 11 Radiological significant finding in cervical & thoracic spine
- 12 Ozone
- 13 LASER
- 14 Adjuvants: anti convulsant & antidepressant
- 15 Stellate + T1-6 sympathetic
- 16 Radiological significant finding in shoulder joint
- 17 neuropathic pain
- 18 Visceral pain
- 19 Diabetic neuropathy
- 20 Cancer pain + sympathetic axis
- 21 Radiological significant finding in knee joint
- 22 Opioid & drug delivery pump
- 23 Cervical pain
- 24 Nerve entrapment of upper limb
- 25 LBP
- 26 Radiological significant finding in hip joint
- 27 Celiac + splanchnic
- 28 Lumbar discography+Intradiscal procedures
- 29 Nerve entrapment of lower limb
- 30 Lumbar Facet joint pain
- 31 Failed back surgery
- 32 Interlaminar and TF epid steroid injections
- 33 SIJ pain and piriformis injections
- 34 Muscle and Myofascial Pain+ FM
- 35 CRPS 1, and 11
- 36 Superior hypogastric + Impar ganglion
- 37 Trigeminal neuralgia + facial pain
- 38 Cervical epidural facet + transforaminal
- 39 headache
- 40 Shoulder joint + arm
- 41 Knee joint + leg

- 42 Ankle joint + foot
- 43 Hip joint + Thigh
- 44 Elbow+forarm
- 45 Wrist joint + hand
- 46 Thoracic facet + transforaminal
- 47 vertebral compression fracture
- 48 Lumbar epiduroscopy
- 49 NCS + EMG
- 50 Spinal cord and peripheral nerve stimulation
- 51 Cervical facet
- 52 Acupuncture
- 53 physio RX
- 54 Regenerative medicine: PRP + stem cells
- 55 Regenerative medicine: stem cells
- 56 Prolotherapy
- 57 Physiotherapy
- 58 enddoscopy
- 59 Injection for spasticity
- 60 sphenopalatine block
